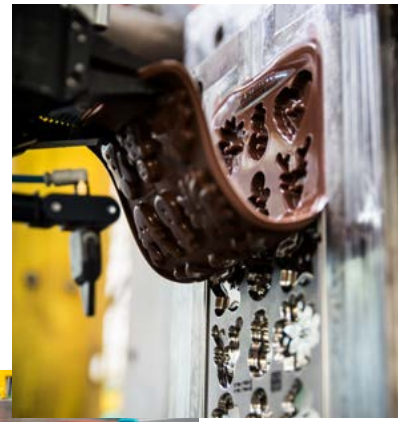
AN ENTIRELY ITALIAN STORY

Silikomart was founded in 2001 from the desire to bring innovation to the fascinating world of professional pastry-making. A world where every movement is the result of technique, experience and sacrifice – values that have always guided master pastry chefs in their pursuit of perfection. In this context, Silikomart has established itself as an international benchmark, offering tools capable of turning creativity into tangible and lasting results.

Products and materials
The choice of silicone as the main material was no coincidence: its extraordinary characteristics – safety, durability and versatility – have been the key to a success that has lasted for over twenty years. Every Silikomart product is designed to ensure excellent performance and to support professionals and enthusiasts at every stage of their work. The focus on the best materials available on the market is an integral part of the company philosophy, which places quality and reliability at its core.



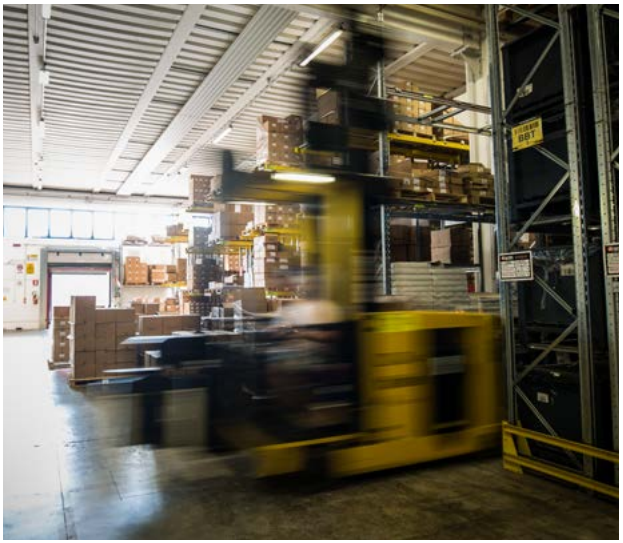
Processes and customisation
Silikomart is a Made in Italy company that oversees the entire life cycle of its products: from design to prototype, from production to packaging. Everything takes place internally, without intermediaries, thanks to the know-how of the people who make up the team. This production independence guarantees total control over every stage and allows us to offer customised solutions that meet the specific needs of those working in the sector. Every item bears the distinctive Made in Silikomart mark, synonymous with excellence and authenticity.

hangar78 and collaborations
Innovation does not stop at production. Silikomart has created hangar78, a research laboratory and cooking school where professionals can express themselves, share ideas and grow. Here, products are tested before being launched on the market, tomorrow's talents are trained, and clients' ideas take shape. Collaborations with chefs from all over the world constantly enrich our knowledge base and help spread the passion for pastry-making globally.

Choosing Silikomart means choosing Italian excellence that offers professionals and enthusiasts the finest materials, processes refined down to the smallest detail, and a constant focus on innovation. It is the guarantee of having a reliable partner by your side, capable of turning every project into a perfect and lasting result.

UNA STORIA TUTTA ITALIANA

Silikomart nasce nel 2001 dal desiderio di portare innovazione nel settore affascinante della pasticceria professionale. Un mondo in cui ogni movimento è frutto di tecnica, esperienza e sacrificio, valori che da sempre accompagnano i maestri pasticceri nella ricerca della perfezione. In questo contesto, Silikomart si è affermata come punto di riferimento internazionale, offrendo strumenti capaci di trasformare la creatività in risultati concreti e duraturi.



Prodotti e materiali
La scelta del silicone come materiale principale non è stata casuale: le sue caratteristiche straordinarie – sicurezza, resistenza e versatilità – hanno rappresentato la chiave di un successo che dura da oltre vent'anni. Ogni prodotto Silikomart è concepito per garantire performance eccellenti e per accompagnare i professionisti e gli appassionati in ogni fase della loro attività. L'attenzione ai materiali migliori disponibili sul mercato è parte integrante della filosofia aziendale, che mette al centro la qualità e l'affidabilità.

Processi e personalizzazione
Silikomart è un'azienda Made in Italy che segue l'intero ciclo di vita dei propri prodotti: dal design al prototipo, dalla produzione al confezionamento. Tutto avviene internamente, senza intermediari, grazie al know-how delle persone che ne fanno parte. Questa indipendenza produttiva consente di garantire un controllo totale su ogni fase e di offrire soluzioni personalizzate, capaci di rispondere alle esigenze specifiche di chi lavora nel settore.
Ogni articolo porta con sé il marchio distintivo Made in Silikomart, sinonimo di eccellenza e autenticità.

Hangar78 e le collaborazioni
L'innovazione non si ferma alla produzione. Silikomart ha creato hangar78, un laboratorio di ricerca e una scuola di cucina dove i professionisti possono esprimersi, confrontarsi e crescere. Qui vengono testati i prodotti prima di essere immessi sul mercato, vengono formati i talenti di domani e si dà forma alle idee dei clienti. Le collaborazioni con chef provenienti da tutto il mondo arricchiscono costantemente il patrimonio di conoscenze e permettono di diffondere la passione per la pasticceria a livello globale.

Scegliere Silikomart significa scegliere un'eccellenza italiana che mette al servizio dei professionisti e degli appassionati i materiali migliori, processi curati nei minimi dettagli e una costante attenzione all'innovazione. È la garanzia di avere al proprio fianco un partner affidabile, capace di trasformare ogni progetto in un risultato perfetto e duraturo nel tempo.

THE ORIGINAL SILIKOMART PLATINUM SILICONE

Silikomart moulds are entirely made in Italy using the finest food-grade silicone available on the market: platinum silicone. From the very beginning, we chose this material to guarantee superior quality products and offer maximum safety to those who use them. This is a deliberate choice to provide tools that last over time and maintain their characteristics even after prolonged use. Platinum silicone represents a true benchmark of excellence: thanks to its unique properties, it ensures exceptional performance and supports professionals at every stage of their work, from baking to cooling, delivering consistently reliable results.

Main features

The premium-quality platinum silicone chosen by Silikomart offers a range of advantages that make it irreplaceable:

PFAS FREE BPA FREE

- Guarantees excellent results for both baking and chilling
- Completely safe for health, free from BPA and PFAS
- Naturally non-stick, enhancing flavour without the need for added fats
- Withstands up to 3,000 baking cycles without losing quality
- Resists extreme temperatures, from -60°C (-76°F) to +230°C (+446°F), without ever deforming
- Does not release harmful substances, even when exposed to high temperatures
- Easy to clean, even in the dishwasher, and always hygienic
- Unbreakable, space-saving and reusable for a long time, combining durability, functionality and sustainability.

Versatility and Sustainability

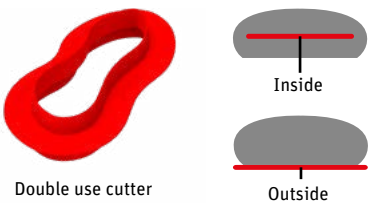
The versatility of platinum silicone allows seamless transition from baking to cooling, optimising time and results. It comes in various colours, all with the same quality and safety. Its long lifespan and total safety make it a sustainable choice, capable of replacing disposable items while protecting both people's health and the environment.

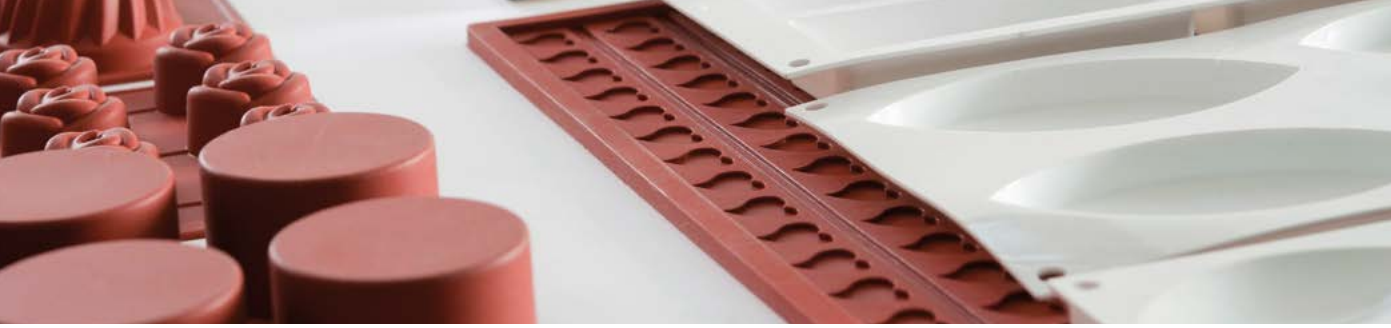
How to Recognise Quality Silicone

To distinguish superior-quality silicone, pay attention to three key aspects:

- Smell: it must be neutral. Silikomart moulds undergo a post-curing treatment that eliminates any volatile residues.
- Appearance: when applying tension to the mould, the colour of Silikomart moulds remains uniform and no white streaks appear.
- Durability: the characteristics of Silikomart silicone remain unchanged over time, such as elasticity and non-stick properties.

Our silicone moulds are often paired with pastry cutters included in the packaging, guaranteeing a complete and tailor-made experience. Made from high-quality ABS, Silikomart pastry cutters are extremely versatile and come in two different shapes: a narrower one for creating perfect inserts and a wider one for creating shortcrust bases on which to place the finished products.





L'ORIGINALE SILICONE PLATINUM SILIKOMART

Gli stampi Silikomart sono realizzati interamente in Italia utilizzando il miglior silicone alimentare disponibile sul mercato: il silicone platinum. Fin dall'inizio abbiamo scelto questo materiale per garantire prodotti di qualità superiore e offrire la massima sicurezza a chi li utilizza. Si tratta di una precisa volontà di proporre strumenti che durino nel tempo e che mantengano inalterate le loro caratteristiche anche dopo un utilizzo prolungato. Il silicone platinum rappresenta infatti un punto di eccellenza: grazie alle sue proprietà uniche, assicura prestazioni eccezionali e accompagna i professionisti in ogni fase della loro attività, dalla cottura al raffreddamento, con risultati sempre affidabili e costanti.

Caratteristiche principali

Il silicone platinum di qualità premium scelto da Silikomart offre una serie di vantaggi che lo rendono insostituibile:

· Garantisce risultati eccellenti sia per il cotto sia per il freddo
· Completamente sicuro per la salute, privo di BPA e PFAS
· Naturalmente antiaderente, esalta il gusto delle preparazioni senza l'aggiunta di grassi
· Resiste fino a 3000 cotture senza perdere qualità
· Sopporta temperature estreme, da -60°C a +230°C, senza mai deformarsi
· Non rilascia sostanze dannose, anche a contatto con alte temperature
· Facile da pulire, anche in lavastoviglie, rimane sempre igienico
· Infrangibile, salvaspazio e riutilizzabile a lungo, unisce durata, funzionalità e sostenibilità.

PFAS FREE BPA FREE

Versatilità e Sostenibilità

La versatilità del silicone platinum consente di passare senza difficoltà dalla cottura al raffreddamento, ottimizzando tempi e risultati. Si presenta di diversi colori, tutti con la stessa qualità e sicurezza. La sua lunga durata e la totale sicurezza lo rendono una scelta sostenibile, capace di sostituire articoli monouso e di tutelare al tempo stesso la salute delle persone e dell'ambiente.

Come Riconoscere un Silicone di Qualità

Per distinguere un silicone di qualità superiore occorre prestare attenzione a tre aspetti fondamentali:

· Odore: deve essere neutro. Gli stampi Silikomart vengono sottoposti a un trattamento di postcuring che elimina eventuali residui volatili.
· Aspetto: esercitando una tensione sullo stampo, il colore degli stampi Silikomart rimane uniforme e non compaiono striature bianche.
· Durata: le caratteristiche del silicone Silikomart restano inalterate nel tempo, come elasticità e antiaderenza.

I nostri stampi in silicone sono abbinati in molti casi a tagliapasta già inclusi nel packaging che garantiscono un'esperienza completa e su misura. Prodotti in ABS di alta qualità, i tagliapasta Silikomart sono estremamente versatili e presentano due diverse sagome, una più stretta per creare inserti perfetti e una più ampia per creare basi in frolla su cui appoggiare i prodotti finiti.

Tagliapasta doppio uso

Set: 1 Silicone mould Base

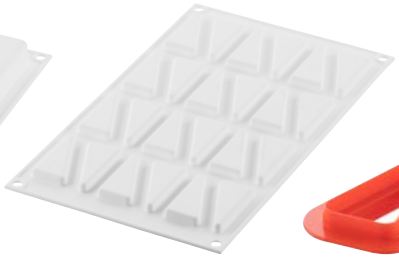
+ 1 Silicone mould Top

+ 1 cutter

+ 1 Self-assembling box

+ 6 Trays

Silicone mould Base



Silicone mould Top

Double Use Cutter

A kit designed to provide professionals with a 100% complete product: two silicone moulds for creating preparations that will win over customers with their combinations of textures and colours. Accompanied by a dual-purpose pastry cutter for creating bases and decorations for your preparations. The moulds come with an elegant self-assembling box complete with 6 100% compostable paper plates that allow you to display your preparations neatly inside, ready to be taken away. Each box has a cellulose acetate window that allows you to see the product inside.

Un kit pensato per dare un prodotto completo al 100% al professionista: due stampi in silicone per realizzare delle preparazioni che conquisteranno i clienti con le loro combinazioni di consistenze e colori. Accompagnati da un tagliapasta doppio uso per poter realizzare basi d'appoggio e decorazioni per le preparazioni. Gli stampi sono accompagnati da un'elegante box automontante completa di 6 piattini in carta 100% compostabile che permettono di poter esporre al suo interno le preparazioni in modo ordinato, pronte per essere portate via. Ogni box presenta una finestrella in acetato di cellulosa che permette di vedere il prodotto contenuto all'interno.

Box Cake to Go

Size: 25,5 x 10 h 60 mm

MULTIFLEX / MUL3D

Multiflex is the mould line designed to create multi-layer single portions with impeccable aesthetics and refined design. Offered in practical kits with various combinations of moulds and VGEL trays, they provide versatile and functional solutions for every need. The three-dimensional version allows for uniform layering and perfectly shaped 3D creations, thanks to the silicone base-and-lid system that ensures precision and quality in every preparation. The modular structure of the moulds facilitates storage and guarantees easy, flawless unmoulding every time.

Multiflex è la linea di stampi studiata per creare monoporzioni multistrato dall'estetica impeccabile e dal design raffinato. Proposti in pratici kit con diverse combinazioni di stampi e vassoi VGEL, offrono soluzioni versatili e funzionali per ogni esigenza. La versione tridimensionale permette di ottenere stratificazioni uniformi e forme 3D perfette, grazie al sistema di base e coperchio in silicone che assicura precisione e qualità in ogni preparazione. La struttura modulare degli stampi facilita lo stoccaggio e garantisce una sformatura semplice e impeccabile ogni giorno.

TOR COLLECTION

Classic cakes take shape perfectly thanks to Top White silicone moulds, made from the highest quality material to ensure non-stick properties, durability, and flawless results. Available in all sizes, they ensure smooth surfaces, defined edges, and perfect unmoulding every time.

Le torte classiche prendono forma alla perfezione grazie agli stampi in silicone Top White, realizzati in materiale di altissima qualità per garantire antiaderenza, resistenza e risultati impeccabili. Disponibili in varie dimensioni , assicurano superfici lisce, bordi definiti e una sformatura sempre perfetta.

- **The best alternative to metal**
  Lightweight, safe, always reliable.
- **Green and reusable molds**
  Zero waste, maximum sustainability.
- **Perfect demolding**
  Fast, clean, flawless.
- **Impeccable shape**
  Always precise and uniform results.

- ***La migliore alternativa al metallo***
  Leggeri, sicuri, sempre affidabili.
- ***Stampi green e riutilizzabili***
  Zero sprechi, massima sostenibilità.
- ***Sformatura perfetta***
  Rapida, pulita, senza difetti.
- ***Forma impeccabile***
  Risultato sempre preciso e uniforme.

Decors

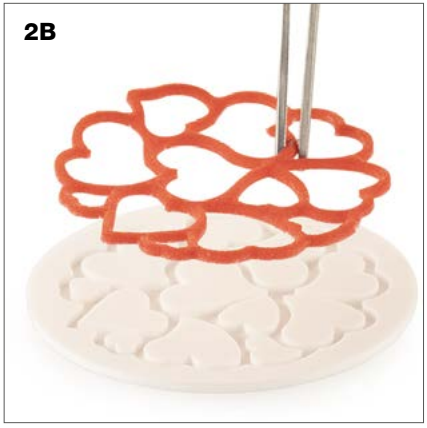
How to use - *Modo d'uso*

• To impress the decoration directly onto the preparation, place the mould with the decorated side up in a Tor180 / Multiflex[170].
To instead create a decoration to be placed on the finished product, fill the mould with chocolate or tuile with the help of a spatula.

• *Per imprimere il decoro direttamente sulla preparazione, posizionare in una Tor180 / Multiflex[170] lo stampo con il lato decorato verso l'alto. Per creare invece un decoro da appoggiare sul prodotto finito, spatolare lo stampo con cioccolato o tuile.*

• Unmould the mixture from the Tor180 / Multiflex[170] mould and gently remove the decorative mould.

• *Sformare il composto dallo stampo Tor180 / Multiflex[170] e rimuovere delicatamente lo stampo decorativo.*



• Remove the decoration from the mould and place it on top of the finished product.

• *Estrarre il decoro dallo stampo e appoggiarlo sopra al prodotto finito.*

60X40
SESSANTAQUARANTA

Volume range: 8,5 - 2400 ml

Moulds of the Sessantaquaranta range were developed in order to obtain a more efficient use of the baking surface and to reduce the time for preparation thanks to the optimization of the productivity in a baking mould of the dimension 60×40 cm. The moulds are made of 100% food safe silicone and can be used in the blast chiller as well as in the oven. The range 60 x 40 is ideal for a professional use in the world of ice cream production, confectionery and Horeca.

La gamma di stampi "Sessantaquaranta", è stata pensata in funzione di un impiego più efficiente delle superfici di cottura, consentendo di ridurre i tempi di preparazione grazie all'ottimizzazione della produttività in una teglia stampo di dimensione 60×40 cm. Gli stampi 60 x 40 in silicone alimentare al 100% sono adatti sia per abbattitore che per forno. La linea 60 x 40 è ideale per un uso professionale nel mondo della gelateria, pasticceria e Horeca.

MICRO-PERFORATED MOULDS
STAMPI MICROFORATI

AIRPLUS®

MICRO-PERFORATED MATERIAL
New micro-perforated material with a glass fiber ideal for baking. This innovative material thanks to its micro-perforated texture allows a uniform diffusion of the heat and the moisture output, reducing cooking times and ensuring a perfect result. Perfect both for sweet and savory creations. Ideal to create tarts, leavened products, short pastry and crust. The moulds developed with this material are non-stick and can be used on both sides to prepare empty or stuffed tartlets. Temperature range: - 40° C + 230° C (- 40° F + 446° F)

MATERIALE MICROFORATO
Nuovo materiale microforato in silicone e fibra di vetro ideale per la cottura. Questo innovativo materiale grazie alla sua trama microforata consente una diffusione uniforme del calore, riducendo i tempi di cottura e garantendo un risultato perfetto. Ideale sia per creazioni dolci che salate. Ideale per creare crostate, prodotti lievitati e sfoglie. Gli stampi con questo materiale sono antiaderenti e possono essere utilizzati su entrambi i lati per preparare tartellette vuote o ripiene. Range di temperatura: - 40° C + 230° C

- Ideal for all kind of batters, pastries and doughs: perfect for sponge cakes, shortcrust, flaky textures, puff pastry and yeasted dough.

  Ideali per tutti i tipi di impasto, texture e consistenze: dalle masse montate ai lievitati sfogliati, alle paste friabili.

- The dough remains inside the micro-perforated mould cavity and does not leak out.

  L'impasto rimane contenuto nella cavità dello stampo microforato e non fuoriesce.

- Non stick mould.

  Stampo antiaderente.

- Easy and perfect unmoulding.

  Smodellamento semplice e perfetto.

- The mould can be used on both sides to prepare shortcrust pastry or brisée pastry shells and stuffed tartlets

  Stampo utilizzabile su entrambi i lati per preparare gusci di pasta frolla o pasta brisée e tartellette ripiene.

- High fat cake doughs could slightly leak out from the base of the mould during baking, ensuring in any case an excellent final result.

  I cake ad alto contenuto di grasso potrebbero leggermente fuoriuscire dalla base dello stampo durante la cottura, garantendo comunque un risultato finale impeccabile.

AIRPLUS® STRIPS

Practical and functional micro-perforated strips ideal for baking shortcrust pastry for tarts and leavened pastry. Airplus Strips take advantage of the technology of the fiberglass texture, which makes the strips completely non-stick. The micro-holes allow a uniform diffusion of the heat for a perfect baking and an quick unmoulding without the necessity of greasing them. Airplus Strips are ideal for an easy stocking in the lab. The strips are washable and reusable. 5 pcs set.
Temperature range: - 40°C + 230°C (-40°F +446°F) .

Pratiche e funzionali fasce microforate ideali per la cottura della pasta frolla e dei lievitati. Le Airplus Strips sfruttano la tecnologia e l'antiaderenza della fibra di vetro intrecciata, che rende le fasce perfettamente antiaderenti. I microfori consentono una diffusione uniforme del calore per una cottura perfetta e una sformatura veloce senza la necessità di ungerle. Le Airplus Strips sono l'ideale per una facile gestione di stoccaggio in laboratorio, le fasce sono facilmente lavabili e riutilizzabili. Set da 5 strips.
Range di temperatura: - 40°C + 230°C

Naturae®

HAUTE CUISINE / ALTA RISTORAZIONE

Naturae®

The nature as you have never seen it
La natura come non l'avete mai vista

An original interpretation of natural elements that translates into a unique experience of taste and aesthetics.

The Naturae line was born from the creative and avant-garde vision of some of the most acclaimed chefs on the national and international scene and brings to the Ho.Re.Ca sector tools capable of combining functionality and beauty.

Naturae is not designed solely for savoury cuisine: these are nature-inspired shapes that also take centre stage in pastry-making and the art of plated desserts, giving life to exclusive creations ranging from starters to cake and modern single-portion decoration, from main courses to plated desserts with tuile or chocolate decorations.

A collection designed for professionals who want to turn every dish – savoury or sweet - into a unique and surprising masterpiece.

Una originale interpretazione degli elementi naturali che si traduce in un'inedita esperienza del gusto e dell'estetica.

La linea Naturae è nata dalla visione creativa e avanguardista di alcuni tra i più acclamati chef del panorama nazionale e internazionale e porta nel settore Ho.Re.Ca strumenti capaci di unire funzionalità e bellezza.

Naturae non è pensata solo per la ristorazione salata: sono forme ispirate alla natura che diventano protagoniste anche in pasticceria e nell'arte del dessert al piatto, dando vita a creazioni esclusive che spaziano dagli antipasti alla decorazione di torte e mono moderne, dalle portate principali ai dessert al piatto con decorazioni in tuile o cioccolato.

Una collezione progettata per i professionisti che vogliono trasformare ogni piatto - salato o dolce - in un'opera unica e sorprendente.

THE DECORS

MOULDS

Our mats from Naturae range presents always different different shapes in each mold, providing many designs only with one mould. They can be used either with "pâte à cigarette" or with chocolate for creating elegant and refined decorations. They are useful for decorating dishes, first and second courses, to create original aperitifs or to give a refined touch to plated desserts. It is also possible to cut the silicone mats following the guidelines provided, where present, for an even more practical use.

I tappeti della linea Naturae presentano sempre diverse forme in ogni stampo, offrendo numerosi design con un unico prodotto. Possono essere utilizzati sia con la pâte à cigarette sia con il cioccolato per creare decorazioni eleganti e raffinate. Sono utili per decorare antipasti, primi e secondi, per realizzare aperitivi originali o per donare un tocco ricercato ai dessert al piatto. È inoltre possibile tagliare i tappetini in silicone seguendo le linee guida riportate, dove presenti, per un uso ancora più pratico.

SILICONE BASKET FOR LEAVENING DOUGHS AND BREAD

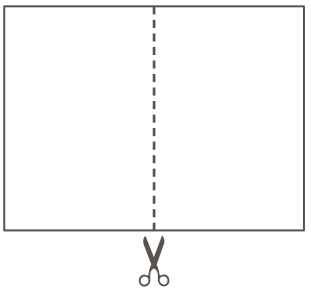
- Totally hygienic
- Dishwasher-safe
- Micro holes for the evaporation of humidity
- Stackable
- Non-stick
- Providing the ideal conditions the bread dough needs before baking to develop properly
- Promoting the fermentation process by providing the dough with sufficient oxygen, which makes the bread soft and airy
- Suitable for use in both the oven +230°C/+446°F and blast chiller -60°C/-76°F.

CESTINO IN SILICONE PER LA LIEVITAZIONE DI IMPASTI E PANE

- Totalmente igienico
- Lavabile in lavastoviglie
- Microfori per l'evaporazione dell'umidità
- Impilabile
- Antiaderente
- Garantisce le condizioni ideali di cui ha bisogno l'impasto del pane prima della cottura per potersi sviluppare correttamente
- Favorisce il processo di fermentazione fornendo all'impasto ossigeno sufficiente, e questo rende il pane soffice e arioso
- Adatto sia per l'uso in forno +230°C che in abbattitore -60°C.

Tappeto Antiscivolo 30x40 cm

Size: 300 x 400 h 1,5 mm
33.018.36.0062



This 30x40 cm non-slip Mat is an essential ally in hotel and restaurant kitchens, as well as at home.
The two polished sides ensure 100% adherence to surfaces, making the use of knives and other blades safer. The cutting guide on the back of the item allows the mat to be divided in half to perfectly adapt to kitchen needs.

Il Tappeto Antiscivolo 30x40 cm è un alleato indispensabile nelle cucine di hotel, ristoranti e anche in casa.
I due lati lucidati garantiscono una aderenza del 100% alle superfici, rendendo più sicuro l'utilizzo di coltelli e di altre lame. L'invito al taglio sul retro dell'articolo consente di dividere il tappeto a metà per adattarsi perfettamente alle esigenze in cucina.

Essential accessories for storing and displaying the finished product: thanks to modular dimensions and high-quality materials, preservation and presentation in the showcase become simple, quick and always impeccable.

The i-Gloo range proposes a series of products in polycarbonate which is ideal for the conservation, stocking and exhibition of your creations. They are resistant and do not lose their shape even after undergoing low temperature (-60°C) and thus are usable also in the blast chiller. Compatibili con vassoi e teglie in metallo.

Accessori indispensabili per lo stoccaggio e l'esposizione del prodotto finito: grazie alle dimensioni modulari e ai materiali di alta qualità, la conservazione e la presentazione in vetrina diventano semplici, veloci e sempre impeccabili.

La linea i-Gloo propone una serie di prodotti in policarbonato infrangibile nel tempo e agli urti, ideali per la conservazione, lo stoccaggio e l'esposizione delle vostre creazioni. Sono resistenti e indeformabili anche dopo essere stati posti a basse temperature (-60° C) risultando quindi essere utilizzabili anche in abbattitore. Compatible with metal trays and pans.

i ♥ levels®

The kit designed to easily create, transport and store multi-layered preparations. I LOVE LEVELS is composed of three elements: a transparent polycarbonate I-GLOO 5.5 cm high lid, a rectangular silicone mould and a 60x40 cm cake board. The rectangular graduated mould facilitates practical and precise filling, the cake board allows an easy passage from one surface to the other, while the polycarbonate cover ensures impeccable storage. An innovative and practical solution designed to facilitate an optimize the production in the pastry laboratory.

Il kit pensato per creare, trasportare e stoccare con facilità creazioni multistrato. I LOVE LEVELS è composto da tre elementi: un coperchio in policarbonato trasparente I-GLOO altezza 5.5 cm, uno stampo in silicone rettangolare e una tavoletta 60x40 cm. Lo stampo rettangolare graduato rende pratico e preciso il riempimento, la tavoletta consente un agevole spostamento delle realizzazioni da una superficie all'altra, mentre il coperchio in policarbonato assicura uno stoccaggio impeccabile. Una soluzione innovativa e pratica concepita per agevolare e utilizzare la produzione in laboratorio.

How to use
Utilizzo

SILICONE MOULD

- Made in high-quality platinum liquid silicone
  Realizzato in silicone platinico di alta qualità
- Extremely flexible to ease the unmoulding of the preparation
  Estremamente flessibile per agevolare lo smodellamento della preparazione
- Equipped with notches to make the filling easier
  Dotato di misurazioni per facilitare il riempimento

COVER

- Safe closing to avoid dew or frost formation
  Chiusura ad incastro per evitare la formazione di brina e di condensa
- Perfectly stackable occupying minimum storage space
  Perfettamente impilabile riducendo al minimo gli spazi di stoccaggio
- Ideal as support for the mould
  Ideale come supporto per lo stampo

CAKE BOARD

- Ideal also for the pre-lievening of brioches, panettone cakes and similar preparations
  Ideale anche per la prelievitazione di brioches, panettoni e preparazioni affini
- It can be stowed in the pastry trolleys
  Può essere riposto nei carrelli da laboratorio
- It matches the I-GLOO cover allowing an easy movement of the preparations
  Coincide con il coperchio I-GLOO consentendo un facile trasporto delle preparazioni
- Edgeless in order to ensure a perfect passage from one surface to the other
  Privo di bordi in modo da garantire un passaggio impeccabile da una superficie all'altra
- Made in high-quality plastic, characterised by a perfect thermal insulation and a better distribution of humidity
  Realizzato in plastica di alta qualità caratterizzata da un perfetto isolamento termico e da una migliore distribuzione dell'umidità

MACADÒ®

More colours than the rainbow, stronger than a rock. Now your precious macarons can be safely stored.

Potete farne di tutti i colori senza mai una rottura.
Da oggi i vostri preziosi macarons hanno un rifugio sicuro.

PFAS FREE BPA FREE

MACADÒ is a practical, resistant and functional plastic box for macarons. It is available in 2 sizes: for 6 or for 12 macarons. It is composed by a transparent cover and a tray available in different colours. The cover can be closed hermetically with a stable joint. In this way macarons are protected from humidity. Furthermore, thanks to its transparency, the products inside are clearly visible. MACADÒ can be customized with a sticker, a ribbon or any other decorative element used in pastry shops.

MACADÒ è una scatola in plastica pratica, resistente e funzionale per macarons. È disponibile in 2 formati: da 6 o da 12 macarons. È composta da un coperchio trasparente e da un vassoio disponibile in diversi colori. Il coperchio si chiude ermeticamente con una chiusura stabile. In questo modo i macaron sono protetti dall'umidità. Inoltre, grazie alla sua trasparenza, i prodotti all'interno sono chiaramente visibili. MACADÒ può essere personalizzato con un adesivo, un nastro o qualsiasi altro elemento decorativo utilizzato nelle pasticcerie.

Reusable Plastic Trays

Elegant reusable plastic trays ideal for presenting, storing, and transporting your single-serve creations, thanks to an innovative non-slip central section and a practical grip area. Available in black or white, their minimal design enhances the appearance of the finished product, offering an elegant and refined visual impact. Easily washable by hand, they can be reused multiple times. Not suitable for dishwasher cleaning.

Eleganti vassoi riutilizzabili in plastica ideali per presentare, stoccare e trasportare le tue monoporzioni grazie a un'innovativa sezione centrale antiscivolo e a un pratico invito alla presa. Grazie ai colori nero o bianco e al design minimal, il piattino mette in risalto l'estetica del prodotto finito per un colpo d'occhio elegante e raffinato. Lavabili facilmente a mano, possono essere riutilizzati più volte. Non adatti al lavaggio in lavastoviglie.

BAKING RINGS
ANELLI DA FORNO

RING PLUSES

① Micro holes for the evaporation of humidity
Microfori per l'evaporazione dell'umidità

② Micro holes always remain cleaned
I microfori rimangono sempre puliti

③ The shortcrust pastry is easily removable from the ring
La frolla si stacca con facilità dall'anello

④ Border to ensure more stability
Bordo che conferisce maggiore stabilità

PFAS FREE

BPA FREE

⑤ Handling and usability
Maggiore manegevolezza ed usabilità

⑥ It should not be greased
Non deve essere imburrato

⑦ Thermal stability and homogeneous baking
Stabilità termica e cottura omogenea

⑧ Can be used also as cutter
Può essere utilizzato anche come cutter

Silikomart kits for tartes consist in: microperforated Tplus rings for the creation of the shortcrust base and decorative silicone moulds that allow to create fine decorations.
I kit Silikomart per tartes sono composti da: anelli microforati TPlus per la creazione della base in pasta frolla e stampi decorativi in silicone che permettono di realizzare decorazioni raffinate.

BAKING MOULDS
STAMPI DA FORNO
T PLUS

Innovative material that has revolutionized shortcrust pastry, viennoiserie, and festive leavened products

- Turning point for professionals: safe, durable, and highly performing
- Guarantees maximum quality and safety, eliminating the limitations of traditional materials

Main Features

- Total safety: 100% free of PFAS and BPA
- Perfect non-stick: without coatings that may wear out over time, no need to add fats if the mixture already contains them. Adding fats is recommended to enhance flavor and color of the finished product.
- Superior durability: does not require re-coating, making it more economical and reliable
- Thermal resistance: from -30°C to +250°C, ideal for storage and baking

Easy unmoulding: unmoulding is simple and flawless. Very low thermal inertia makes moulds safe to handle just seconds after leaving the oven.

- Versatility: compatible with controlled proofing chambers, goes directly from freezer to oven or microwave
- Uniform baking: perfect on trays and racks, conducts heat flawlessly, reducing baking times and temperatures. Suitable for both sweet and savory preparations.
- Strength and rigidity: non-deformable and stainless, does not stain or transfer color to the dough. Resistant to shocks and accidental drops
- Practicality: dishwasher safe without altering the material's properties
- Compliance: meets FDA/FCN directives
- Sustainability: regenerable material, designed to last and reduce waste

Versatility and Savings

- Uniform heat conduction: perfect results and reduction of baking times and temperatures
- Significant energy savings
- Resistant to low and high temperatures: suitable for storage, preservation, and final baking

Materiale innovativo che ha rivoluzionato frolla, viennoiserie e lievitati da ricorrenza

- Punto di svolta per i professionisti: sicuro, durevole e altamente performante

- Garantisce massima qualità e sicurezza, eliminando i limiti dei materiali tradizionali

Caratteristiche principali

- Sicurezza totale: 100% privo di PFAS e BPA

- Antiaderenza perfetta: senza rivestimenti che possano usurarsi nel tempo, non è necessaria l'aggiunta di grassi se il composto ne contiene già. Si consiglia l'aggiunta di grassi per aggiungere sapore e colore al prodotto finito.

- Durata superiore: non necessita di riteflonatura, risultando più economico e affidabile

- Resistenza termica: da -30°C a +250°C, ideale per la conservazione e la cottura

- Facilità della sformatura: la sformatura è facile e impeccabile. Inerzia termica molto bassa che rende gli stampi manipolabili senza rischi pochi secondi dopo l'uscita dal forno.

- Versatilità: compatibile con l'uso in celle di lievitazione controllata, passa direttamente dal freezer al forno o al microonde

- Cottura uniforme: perfetto su placche e griglie, conduce il calore alla perfezione, riducendo tempi e temperature di cottura. Adatto per preparazioni dolci e salate.

- Robustezza e rigidità: indeformabile e inossidabile, non si macchia e non trasferisce il colore sull'impasto. Resistente agli urti e alle cadute accidentali

- Praticità: lavabile in lavastoviglie senza alterare le caratteristiche del materiale

- Conformità: rispetta le direttive FDA/FCN

- Sostenibilità: materiale rigenerabile, pensato per durare e ridurre sprechi

Versatilità e Risparmio

- Conduzione uniforme del calore: risultati perfetti e riduzione di tempi e temperature di cottura

- Notevole risparmio energetico

- Resistente a basse e alte temperature: adatto a conservazione, stoccaggio e cottura finale

PFAS FREE BPA FREE

How to use kits including TPlus and Tritan moulds:
Come utilizzare i kit comprensivi di stampo in TPlus e in Tritan:

1. Fill the TritanTM mould with chocolate and insert the cake previously made
1. Riempire lo stampo in TritanTM con del cioccolato e inserire il cake

2. Allow to crystallise, then unmould the result
2. Lasciare cristallizzare, poi sformare il risultato finale

3. Decorate as desired
3. Decorare a piacere

VIENNOISERIE CUTTERS
TAGLIAPASTA PER VIENNOISERIE

Tplus cutters are developed to cut and bake puff pastry, leavened dough and shortcrust pastry directly from the mould taking advantage of the innovative Tplus material, guaranteeing a perfect baking and creation up to 180°C (356°F)

I tagliapasta Tplus, ideati per coppare e cuocere direttamente nello stampo impasti sfogliati lievitati, pasta sfoglia e pasta frolla, sfruttano la tecnologia dell'innovativo materiale Tplus, che garantisce una cottura e una creazione perfetta fino a 180°C

- Great engraving properties, for an accurate and clean cut.
Ottima proprietà di incisione, per un taglio netto e preciso.

- Stuffed viennoiserie with a single cutters kit, creating a perfect match between stuffed base and the top cut-out.
Realizzazione di viennoiserie farcite con un unico kit di cutter, che permette di creare un match perfetto tra la base ripiena e la sagoma ritagliata superiore.

CHOCO STAMP

A kit comprising 4 plastic handles and 4 silicone stamps to create original decorations on our Semisfera 01-P mould.
• 1 PRODUCT – 4 DIFFERENT DESIGNS
• The handle fits perfectly into the square cavity of the stamp, providing maximum stability during decoration.
• Original designs developed in collaboration with Lluc Crusellas, winner of the 2022 World Chocolate Masters.

Un kit composto da 4 manici in plastica e 4 timbri in silicone per creare originali decorazioni sul nostro stampo Semisfera 01-P
• 1 PRODOTTO - 4 DESIGN DIVERSI.
• Il manico si inserisce perfettamente nella cavità quadrata presente sul timbro, dando così massima stabilità in fase di decorazione.
• Originali design sviluppati in collaborazione con il vincitore dei World Chocolate Masters 2022 Lluc Crusellas.

Lluc Crusellas

How to use
Utilizzo

The handle perfectly matches the square cavity of the silicone stamp for perfect stability when decorating.
Il manico si inserisce perfettamente nella cavità quadrata presente sul timbro, dando così massima stabilità in fase di decorazione.

High-quality moulds for fine chocolates

Stampi di qualità per l'alta cioccolateria

The Chocado range brings all of Silikomart's expertise and the well-established qualities of materials such as Tritan™ and platinum silicone to the world of fine chocolate-making. Durability, resistance and reliable performance over time are the pillars on which this collection is built, designed to support chocolatiers and artisans in creating unique products.

Main features
Chocado moulds are made from Tritan™, a material that represents an evolution compared to traditional plastics:
- Durability: resists impacts and frequent washing, maintaining its properties unchanged even after years of use.
- Safety: free from PFAS, BPA, BPS and other bisphenols, perfectly suitable for food contact.
- Purity and resistance: guarantees superior performance and consistent reliability over time.
- Lightweight: lightweight moulds to make every process easier.
- Aesthetic: ensures glossy results without additional effort.

Versatility and reliability
With Chocado, creative possibilities in chocolate-making expand: many shapes can be combined with silicone moulds, allowing perfect inserts to be created. New textures and flavours can be experimented with, giving life to original creations. This results in versatile products, such as summer chocolates, ideal even during periods when traditional chocolate consumption tends to decrease. Every mould guarantees a glossy finish and an impeccable shape, thanks to easy unmoulding.

tritan™ from eastman

PFAS FREE BPA FREE

La linea chocado porta nell'alta cioccolateria tutta l'esperienza di Silikomart e le qualità ormai consolidate di materiali come tritan™ e il silicone platinum. Durevolezza, resistenza e performance affidabili nel tempo sono i pilastri su cui si fonda questa collezione, pensata per accompagnare i cioccolatieri e gli artigiani nella creazione di prodotti unici.

Caratteristiche principali
Gli stampi chocado sono realizzati in tritan™, un materiale che rappresenta un'evoluzione rispetto alle plastiche tradizionali:
- Durata: resiste agli urti e ai lavaggi frequenti, mantenendo le sue proprietà inalterate anche dopo anni di utilizzo.
- Sicurezza: privo di pfas, bpa, bps e altri bisfenoli, è perfettamente idoneo al contatto con gli alimenti.
- Purezza e resistenza: garantisce performance superiori e affidabilità costante nel tempo.
- Leggerezza: stampi leggeri per facilitare ogni lavorazione
- Estetica: garantisce risultati lucidi senza sforzi ulteriori

Versatilità e affidabilità
Con chocado si ampliano le possibilità creative nella lavorazione del cioccolato: molte forme si abbinano agli stampi in silicone, permettendo di realizzare inserti perfetti. Si possono sperimentare nuove consistenze e sapori, dando vita a creazioni originali. Nascono così prodotti versatili, come i cioccolatini estivi, ideali anche nei periodi in cui il consumo di cioccolato tradizionale tende a diminuire. Ogni stampo garantisce una resa lucida e una forma impeccabile, grazie alla sformatura facilitata.

Chocado kits combine two premium materials:
Tritan, which is both durable and flexible, delivers exceptionally glossy finishes, while platinum silicone streamlines the creation of inserts to be added during assembly, optimizing the production process and ensuring flawless results.

I kit Chocado uniscono due materiali di altissima qualità:
il Tritan, resistente e flessibile, assicura finiture estremamente brillanti, mentre il silicone platinum semplifica la realizzazione degli inserti da aggiungere in fase di assemblaggio, ottimizzando il processo produttivo e garantendo risultati impeccabili.

3D THERMOFORMED CHOCO FIGURES
TERMOFORMATI 3D CHOCO FIGURES

The 3D thermoformed Choco Figures moulds are the ideal solution for creating three-dimensional chocolate subjects. With figures designed for every theme and season, they bring the sweetness and intensity of chocolate to every special occasion, ensuring flawless results. The finishing touch is personalisation, entrusted to the flair and creativity of the chocolatier.

Gli stampi termoformati 3D Choco Figures sono la soluzione ideale per creare soggetti di cioccolato tridimensionali. Con figure pensate per ogni tema e stagione, portano la dolcezza e l'intensità del cioccolato in ogni occasione speciale, assicurando risultati impeccabili. A completare l'opera resta solo la personalizzazione, affidata all'estro e alla creatività del cioccolatiere.

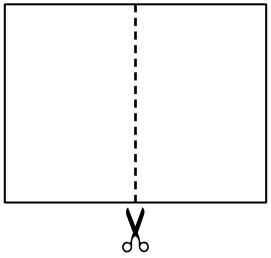
Tappeto Antiscivolo 30x40 cm

Size: 300 x 400 h 1,5 mm
33.018.36.0062



This 30x40 cm non-slip Mat is an essential ally in hotel and restaurant kitchens, as well as at home.The two polished sides ensure 100% adherence to surfaces, making the use of knives and other blades safer. The cutting guide on the back of the item allows the mat to be divided in half to perfectly adapt to kitchen needs.

Il Tappeto Antiscivolo 30x40 cm è un alleato indispensabile nelle cucine di hotel, ristoranti e anche in casa. I due lati lucidati garantiscono una aderenza del 100% alle superfici, rendendo più sicuro l'utilizzo di coltelli e di altre lame. L'invito al taglio sul retro dell'articolo consente di dividere il tappeto a metà per adattarsi perfettamente alle esigenze in cucina.

In dotazione 3 puntali intercambiabili in silicone

Interchangeable silicone nozzle

Funnel Choc by Silikomart is a professional quality dosing funnel, excellent to prepare your desserts. Perfect to fill the moulds by pouring the right quantity of product, to decorate and garnish with the utmost precision and without waste. Suitable for liquids, fondants, jellies, chocolate, creams, etc.

Il Funnel Choc di Silikomart è un colino dosatore, di qualità professionale, eccellente per la preparazione delle vostre portate. Perfetto per riempire gli stampi versando la giusta dose di prodotto, per decorare e guarnire con estrema precisione e senza spreco. Adatto per liquidi, fondenti, gelatine, cioccolato, creme, etc.

tritan™ from eastman

Decorative Pen

Size: 88x54 h 46 mm
Volume: 55-60 ml
72.342.86.0069

The decorative pen is practical for the decorations of cakes with liquid chocolate, creams and liquid mixtures. It is composed by a silicone body, four decorative lips and a cap, suitable to realize the most precise details. The body can be removed and washed separately with the other components in the dishwasher. It is a product made with a high quality silicone, 100% Made in Italy, and with a resistant quality of plastic.

Penna decorativa, pratica per decorare dolci con cioccolato fuso, crema e preparazioni liquide. Dotata di un corpo in silicone, quattro beccucci decorativi ed un tappo, adatti a realizzare i dettagli più minuziosi. E' possibile smontare il corpo della penna e lavare il tutto in lavastoviglie. Prodotto in silicone di alta qualità 100% Made in Italy e plastica resistente.

- Avoids dispersion of heat
- Avoids the discharge of lather
- Flexible over time
- Steam cooking
- Ecologic
- Suitable for high temperatures

- *Evita la dispersione di calore*
- *Evita la fuoriuscita della schiuma*
- *Flessibile nel tempo*
- *Cucina al vapore*
- *Ecologico*
- *Adatto alle alte temperature*

How to use: / *Utilizzo:*

With polycarbonate top
Con tappo in policarbonato

With the polycarbonate top twisted
Con tappo scostato

Without the polycarbonate top
Senza tappo

Vapo

Size: Ø 300 mm

Food grade silicone cover provided with special splits to allow the discharge of the steam during the cooking phase. It is also useful to avoid the discharge of lather during the boiling of water.

Coperchio , dotato di apposite fessure per permettere la fuoriuscita del vapore in fase di cottura. Utile anche per evitare la fuoriuscita della schiuma durante l'ebollizione.

VELVET SPRAY OIL BASED

VELVET SPRAY BASE OLIO

The new oil-based spray delivers the same high-end decorative effect as cocoa butter sprays. It also garented perfect results on non-frozen products, such as puddings, mousses, and more. Also suitable for decorating preparations covered with buttercream. This is a real plus for professionals and home users, offering greater versatility in everyday applications.

Il nuovo spray a base di olio offre lo stesso effetto decorativo di alta qualità degli spray al burro di cacao. Garantisce inoltre risultati perfetti anche su prodotti non congelati, come budini, mousse e altro ancora. È adatto anche per decorare preparazioni ricoperte di crema al burro. Un vero vantaggio per i professionisti e per gli appassionati di cucina, che possono così contare su una maggiore versatilità nelle applicazioni quotidiane.

VELVET SPRAY

VELVET SPRAY BASE CACAO

Food grade velvet spray for the decoration of frozen preparations. Cocoa butter spray, perfect for mousses, entremets and frozen products in general. Shake well before and during using. Spray evenly with small pressures a thin and homogeneous layer keeping about 50 cm from the frozen surface. Carefully follow the instructions on the label.

Colorante alimentare spray effetto velluto per decorare preparazioni congelate. Burro di cacao spray, perfetto per mousse, entremet e prodotti congelati in genere. Agitare bene prima e durante l'uso. Spruzzare uniformemente con piccole pressioni uno strato sottile ed omogeneo mantenendo una distanza di circa 50 cm dalla superficie congelata. Seguire attentamente le istruzioni riportate in etichetta.

THE ONE MIRROR GLAZE

GLASSA A SPECCHIO

The only powdered mirror glaze preparation that ensures the same results as the one prepared by hand. A single product to create multiple glazes. Easy to use (it is practically impossible to fail), it does not require the addition of other ingredients but only water ... It can't get easier than that! Furthermore, The One Mirror Glaze by i78 by Silikomart can be flavored with concentrated or chocolate pastes and coloured with water-soluble colourants (including natural ones). Available in two sizes: 300g and 1Kg pot to meet the needs of all consumers. The One Mirror Glaze powdered mirror glaze guarantees a transparent and shiny result, which is maintained even at negative temperatures.

L'unico preparato per glassa a specchio in polvere che assicura gli stessi risultati di quella preparata a mano. Un unico prodotto per creare molteplici glasse. Facile da usare (è praticamente impossibile sbagliare), non richiede l'aggiunta di altri ingredienti ma solo acqua...più facile di così! Inoltre The One Mirror Glaze di i78 by Silikomart può essere aromatizzata con paste concentrate o cioccolato e colorata con coloranti idrosolubili (anche naturali). Disponibile in due formati: barattolo da 300g e da 1 kg per rispondere alle esigenze di tutti i consumatori. La glassa a specchio in polvere The One Mirror Glaze garantisce un risultato trasparente e brillante, che si mantiene anche a temperature negative.

OIL-BASED LIPO COLOR

COLORANTI LIPO BASE OLIO

Concentrated oil-based fat-soluble colourings, ready to use and ideal for professional results. They are perfect for colouring chocolate, buttercream, sugar paste and all fat-based preparations. Their high solubility guarantees intense, bright colours with just a few drops, which distribute evenly with a simple stir, without the need for a blender and without forming lumps.

Coloranti liposolubili concentrati a base oleosa, pronti all'uso e ideali per risultati professionali. Sono perfetti per colorare cioccolato, crema al burro, pasta di zucchero e tutte le preparazioni a base grassa. L'elevata solubilità garantisce colori intensi e brillanti già con poche gocce, che si distribuiscono in modo uniforme con una semplice mescolata, senza bisogno di frullatore e senza formazione di grumi.

The water-soluble or fat-soluble food colours in powder are highly concentrated and they have a high pigmentation power. Thanks to the high quality of the product, a very small amount will be sufficient to color sugar paste, marzipan, icing, meringue, chocolate, mousse, icing and much more.

I Coloranti alimentari idrosolubili o liposolubili in polvere sono ad alta concentrazione e ad alto potere di pigmentazione. Grazie all'alta qualità del colorante, sarà sufficiente una piccolissima quantità per colorare paste di zucchero, marzapane, glassa, meringa, cioccolato, mousse, glasse e molto altro.

ISOMALTO

Isomalt is a natural substitute for sugar, wich is mainly used for its physical characteristics similar to those of sugar. Isomalt is a disaccharide composed of two sugars glucose and mannitol. The isomalt can be dissolved either in the microwave or in a pan with double bottom. Isomalt is transparent (this differs from caramel) then you can either leave as it is or colour it (put the gel colour before it is dissolved). The flavour is equal to that of regular sugar. It cools more slowly than caramel and you have a little more time to shape the decorations.

L'isomalto è un sostituto naturale dello zucchero. Si tratta di un disaccaride composto dai due zuccheri glucosio e mannitolo. L'isomalto non ha l'indesiderato "effetto di raffreddamento" (cooling effect) proprio di altri zuccheri alcolici. Può essere utilizzato anche per la scultura di zucchero ed alcuni lo preferiscono in quanto cristallizza più lentamente. è trasparente (in questo differisce dal caramello) quindi potete lasciarlo così o colorarlo (aggiungendo dei coloranti in gel prima di scioglierlo). Il sapore è uguale a quello del normale zucchero. Raffreddandosi più lentamente del caramello, si ha un pò più di tempo per modellare le decorazioni.

FLAVOURING PASTE

PASTA CONCENTRATA

Highly concentrated flavoring pastes to add to creams, doughs and ice creams, also excellent for baking. A few grams are enough to add the chosen aroma to your preparations. Extremely simple to use, they guarantee a professional result and are perfect to use with The One Mirror Glaze, and Cake Mix.

Paste aromatizzanti altamente concentrate da aggiungere a creme, impasti e gelati, ottime anche in cottura. Bastano pochi grammi per aggiungere l'aroma scelto alle vostre preparazioni. Semplicissime da usare, garantiscono un risultato professionale e sono perfette da usare con The One Mirror Glaze, e Cake Mix.

BESPOKE MOULDS
STAMPI PERSONALIZZATI

Thanks to our know-how, we offer the possibility to create customised moulds for every need, adapting the design and shapes of the moulds to individual requests. We use silicone in all its forms, particularly on a 60x40 cm (23.6x15.7 in) base and on the standard modular SF base (17.5x30 cm / 6.9x11.8 in), with the option to produce moulds in additional formats upon request. For chocolate-making, we create moulds in Tritan, a material similar to polycarbonate that offers health benefits and optimises production thanks to its resistance. For further information, simply contact us – we will be happy to respond to any request and advise you on the most suitable material for your project.

L'atelier.

Grazie al nostro know-how offriamo la possibilità di creare stampi personalizzati per ogni esigenza, adattando design e forme degli stampi alle singole richieste. Utilizziamo il silicone in tutte le sue forme, in particolare su base 60x40 cm e su base modulare standard SF (17,5x30 cm), con la possibilità di realizzare stampi anche in ulteriori formati su richiesta. Per la cioccolateria creiamo stampi in Tritan, materiale simile al policarbonato che presenta vantaggi per la salute e che ottimizza la produzione grazie alla sua resistenza. Per ulteriori informazioni non resta che contattarci, saremo lieti di rispondere a ogni vostra richiesta e consigliarvi il materiale più indicato per il vostro progetto.
