Fabrizio Fiorani x Iconic

La prima pralina col vuoto al centro: Iconic è un must. Un'idea che nasce dal desiderio di rompere gli schemi creando qualcosa di unico, tra cinque forme geometriche pure e l'innovazione tecnica del foro passante svasato, dal team di ricerca Pavoni Italia.

The first praline with a hole through its centre: Iconic is a must. An idea that stems from the desire to break the patterns by creating something unique, among five pure geometric shapes and the technical innovation of the countersunk through-hole by the Pavoni Italia research and development team.

Massimo Bottura x Serigrafie

Da un piatto che è già culto, il design per praline dal carattere tutto italiano. Frutto della collaborazione fra Massimo Bottura e Pavoni Italia, la nuova veste di "Camouflage" è qui: lo stile iconico dello Chef modenese, interpretato per il mondo del cioccolato. Arte da mangiare, anche con gli occhi.

A cult dish from Massimo Bottura with the Italian praline design, this "Camouflage" has a new look with Pavoni Italia. The creative mind of the Modenese Chef proposes an edible artwork, with an exploding flavor of chocolate.

Nicolas Bacheyre x Pavoflex 300x175 mm

Il talento di Nicolas Bacheyre per un'idea di geniale semplicità. La tradizionale fetta di torta diventa protagonista moderna grazie a Slake, il kit composto da stampo in silicone e coppapasta per base e inserto. Nasce così la possibilità di creare tante interpretazioni differenti, da affiancare in un'unica, speciale composizione.

Nicolas Bacheyre's talent for a brilliant, yet simple idea. The traditional slice of cake becomes a modern protagonist thanks to Slake, the kit consisting of a silicone mould and a cutter for bases and inserts. There it is the possibility of creating many different interpretations, which can be combined in a unique, special composition.

Maurizio Santin x Pavocake

Disco è lo stampo in silicone essenziale e seducente sviluppato da Maurizio Santin con Pavoni Italia. La linea è minimale, aderente al credo “less is more”. La perfezione è tutta nell’equilibrio di pochi elementi, che si valorizzano vicendevolmente: un cm di masticabilità, uno di caratterizzazione con inserto, uno di setosità e morbidezza. Tutta la forma che diventa sostanza, in soli 3 cm di eleganza.

Disco is the essential and seductive silicone mould developed by Maurizio Santin with Pavoni Italia. The line is minimal, according to his "less is more" belief. Perfection is in the balance of few elements which enhance each other: 1 cm of chewiness, 1 cm characterization with insert, 1 cm of smoothness. Shape becomes substance, 3 cm of pure elegance.

Leonardo Di Carlo x Formasil

Dalla passione e motivazione per risvegliare la pasticceria e non solo dal sonno dogmatico della ricetta nasce Formasil. Leonardo Di Carlo, Campione del mondo di pasticceria, ribalta insieme a Pavoni Italia i preconcetti e le mappe mentali del lavoro in cucina, per un prodotto versatile, creativo e funzionale.

From passion and motivation to revitalising pastry making, and from more than just the dogmatic slumber of the recipes, comes Formasil. Leonardo Di Carlo – World Champion pastry chef – together with Pavoni Italia, overturns the preconceptions and mind maps of working in the kitchen, in order to design a versatile, creative and functional product.

Top Ice

Top Ice è la linea di stampi in silicone per la decorazione delle vaschette gelato. Il modo nuovo di creare una vetrina capace di catturare lo sguardo e una soluzione ideale per la conservazione: Top Ice annulla l'effetto "defrost", evitando che gelato subisca sbalzi di temperatura e impedisce la formazione della fastidiosa e antiestetica patina sul gelato, dovuta all'ossidazione. Questo significa più libertà e meno lavoro. Cinque trame diverse, tutte da interpretare in modo personale, per dare a ogni gelato l'aspetto che si merita.

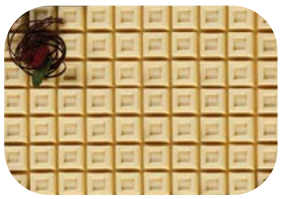

Top Ice is the line of silicone moulds for decorating ice cream pans. The new, simple and quick way to create a shop window able to catch the eye: Top Ice nullifies the "defrost" effect, your ice cream will not be subjected to sudden changes in temperature, but kept stable. It helps avoiding the formation of that pesky, unaesthetic coat on the top of your ice cream, due to oxidation. The final result: less work, more freedom. Five different textures, all to be interpreted and decorated in a personal way, to give each ice cream the look it deserves.
